**The text:**

The living angel in our life who takes care of us is our mother. To honour the existence of this angel, we celebrate Mother's Day every year in May. The date is different from one country to another. People celebrate it in different ways; either the entire family stays at home, or some schools organize parties that mothers attend.

For this occasion, and as I am the only girl at home, I try to give my mother some rest from her daily chores. I clean the entire house instead of her. Then, my two brothers and I give her handmade presents like cards. It brings her joy to get a surprise and her smile makes us happy. My father helps in the preparations. He also buys her a nice present; a ring or a necklace for example. We spend the day together and later at night, we go out to have dinner in a restaurant.

My mother appreciates the present I make for her that is why she puts it with care inside the cupboard.

Mother's Day is all about being grateful for the presence of this wonderful human in our life.
